

MONORAIL

MonoRail End Power Feed

DESCRIPTION

End power feeds are generally used to bring power to a MonoRail system when the transformer or canopy cannot be located directly above the run. The end power feed pushes into an end of the MonoRail and includes a removable 4" round canopy and 12' of field-cutable softwire leads.

INSTALLATION

This product can mount to either a 4" square electrical box with round plaster ring or an octagon electrical box (not included), directly to a Remote Transformer, or to a Kable Lite Surface Transformer (sold separately).
