WELCOME!

Dear Valued Customer,

Our 2020 Full Line Catalog is a bit lighter and has a different look and feel. We are excited to share our newest product introductions using a new catalog format. We hope you enjoy the lifestyle inspirations as well as the new photo index–style format. In addition, we've invested additional resources in online tools that will allow you and your customers to get even more intimate with our products. We encourage you to check out www.quoizellights.com.

You will notice our newest April product introductions in the first section of the Catalog. These items represent expansion items designed from our best–selling product families. These products are also included at the category level of product throughout the rest of the Catalog.

From glam bath bars that pop on decorative wallpaper, contemporary mix and match styles that illuminate family dinners or game night, and even an update to the traditional silhouettes we know will never go out of style, Quoizel is here to light up your space for the moments that matter.

We hope you enjoy these products and our Catalog as much as we have bringing them to life for you and your customers!

Warmest regards,

Sincerely,

Rick Seidman President

SCONCE UPON A TIME

Wall sconces are having a moment. While one sconce is perfect for over a desk or kitchen sink, the sconce has no problem sharing the spotlight. As a matter of fact, in perfect symmetry is where these fixtures really shine! Sconces are reading lights done right, flanking a headboard in a bedroom or the mirror above a bathroom sink. Modern, traditional, fixed or swivel mounted, we love how multi-faceted the sconce is, a light in shining armor!

When Meghan Trainor sings "All About That Bass" our minds go to base finish, and we don't have to look very far for one of the hottest finish trends. Brass finishes are back and better than ever! Some may argue brass never truly went away, but the brass of today is "not your Grandmother's" - it's a little understated, less shiny, and oh-so luxurious. A major upside to this new wave of warmth is that it pairs well with anything - that's right, mix those metals, take the plunge with dark colors, or stay clean with bright whites. Unlike shag carpet, brass is a trend we will gladly accept back in style.
